

## **What's wrong with being White?**

**The answer, of course, is nothing! In fact, you, as a White person, have every reason to be proud. After all, while the Negroes were running around in the jungle eating each other, your White ancestors were building the world's mightiest civilizations, including ancient Greece, Rome, modern Europe and America, to name a few. All of the technological advances and wonderful conveniences you enjoy today were brought about by creative Whites: people of your race.**

But now you're being told that you should be ashamed of your race. The Jew-controlled media - television, radio, and newspapers - keep telling you that you have "oppressed" the Negro, and that you should make up for this alleged "oppression" by offering the blacks your job, your neighborhood, and your daughter.

It is never pointed out that the black race in Africa sat on its collective behind for thousands of years, oppressed by no one, without even developing the wheel. Nor is it mentioned that the Negro's only real contributions to America have been rising rates of crime, illegitimacy, and venereal disease.

What's more, White Americans aren't being informed that the latest scientific research confirms that the backwardness of the Negro is due not to his environment, or to "oppression", but to his natural biological inferiority.

Why aren't these facts brought to your attention? Simply because the Jews and their stooges aren't interested in publicizing the facts, but in peddling the "equality" lie, in order to bring about race-mixing, the downfall of White culture, and the destruction of the White race itself.

The effort to instill a guilt-complex in Whites over the uncreative Negro's inherent lack of progress is just one of the many vicious tactics being used by the Jews and the integrationist fanatics to reduce the White race to a cowering herd of mongrels.

If you're tired of hearing about what a "dirty Honkey" you are, and want to do something to preserve your racial heritage, then join with other concerned White men and women in an organization dedicated to supporting White people's interests.
